GitHub: github.com/Abhinav09060 **Mobile:** +91 9877526231

SKILLS SUMMARY

Languages: Java, Python, C, C++, SQL
Frameworks & Libraries: Spring boot, Numpy, Pandas
Databases: MySQL, MongoDB
Cloud / DevOps: Git, Github, Docker
Developer Tools: VS Code, Antigravity, Linux
Core Subjects: Data Structure and Algorithms, DBMS, Operating System, Computer Networks
Soft Skills: Communication, Problem Solving, Teamwork

PROJECTS

CodeExplainerAI Jun 2026 – Jul 2026
GitHub | Live Website

- Developed a Streamlit application to transform code snippets into structured learning breakdowns for learners.
- implemented schema-constrained Gemini API generation, line-by-line analysis, complexity reasoning, improvements, quizzes, and authentication.
- Delivered consistent structured explanations across unpredictable code inputs, improving reliability over prompt-only formatting.

Tech Stack: *Python 3.11, Gemini 2.5 Flash, SHA256*

AI Resume Analyzer Oct 2025 – Nov 2025
GitHub | Live Website

- Developed an AI-powered resume analysis application to evaluate resumes and provide actionable feedback for improving job applications.
- Implemented resume parsing and analysis to assess skills, identify missing keywords, and evaluate alignment with job descriptions.
- Designed a user-friendly interface to deliver resume insights, highlight improvement areas, and support ATS-friendly resume optimization.

Tech Stack: *Python, AI/LLMs, Streamlit, Natural Language Processing (NLP)*

SUMMER TRAINING

Agentic AI | Lovely Professional University Jun 2026 – Jul 2026
Certificate

- Developed autonomous AI agents using Python and LLMs to automate complex, multi-step tasks requiring dynamic decision-making.
- Implemented tool orchestration, enabling generative AI models to securely access external APIs and data sources to resolve user queries.
- Tech Stack: Python, LangChain/LlamaIndex (add if you used them), LLMs, Prompt Engineering.

CERTIFICATIONS / CERTIFICATES

Agentic AI Program , LPU Jun 2026
Ethical Hacking, Coursera Jun 2026
Java Certification, Geeks for Geeks Jun 2025
Python, Cisco Networking Academy Feb 2025

EXTRACURRICULARS

Technical Development Jan 2025

- Engaged in independent software development using Java and Python, applying programming fundamentals and problem-solving techniques to practical applications.

Technology Exploration Jun 2026

- Explored generative AI and LLM-based application development through practical projects and technical training.

ACHIEVEMENTS

- **Top 20 / 200 Teams** – Webathon 2.0: Developed a smart document-summarization web app using Python, Streamlit, and the Gemini API within 24 hours. The app allowed users to upload PDFs and instantly generate study flashcards, placing in the top 10% for technical execution.
- **Top 15 / 105 Teams** – Engineered a full-stack event-booking platform, integrating an interactive frontend dashboard with a robust Java and Spring Boot backend. Optimized MySQL database queries to handle simultaneous booking requests efficiently under strict time constraints.

EDUCATION

Lovely Professional University Aug 2024 – Present
B.Tech,CSE — CGPA: 7.6 Jalandhar,Punjab

Narayana Junior College Jul 2022 – May 2023
Senior Secondary (Class XII) — Percentage: 82 Hyderabad, Telangana

Army Public School Jul 2021 – May 2022
Secondary (Class X) — Percentage: 75 Hyderabad, Telangana
